

OsteO-3™

A Comprehensive Nutritional Supplement for Dogs With Degenerative Joint Disease

Degenerative Joint Disease

Degenerative joint disease is the most common non-inflammatory joint disease of animals:

- #1 cause of chronic pain in dogs
- Affects 20% of dogs older than 1 year of age
- Ranked in the top 10 diagnoses for dogs > 7 years old
- #7 illness reported to pet insurance companies

Available in three convenient sizes:

90 count Chewable Tablets

480 gm Granules

960 gm Granules

OsteO-3™ is highly palatable and formulated with vitamins, minerals, antioxidants and the following key ingredients:

	Glucosamine HCL	Perna Canaliculus	Creatine Monohydrate	MSM	EPA	DHA
OsteO-3™ Tablets (per tablet)	900 mg	300 mg	500 mg	800 mg	18 mg	12 mg
OsteO-3™ Granules (per 8 gm scoop)	900 mg	300 mg	500 mg	800 mg	180 mg	120 mg

Glucosamine HCl

An amino sugar produced naturally in the body whose primary function is to stimulate the production of glycosaminoglycans (GAG's) in the articular cartilage.

Perna Canaliculus (Green Lipped Mussel)

A natural anti-inflammatory and an excellent source of glycosaminoglycans, including chondroitin and hyaluronic acid, that give cartilage elasticity.

Creatine Monohydrate

A vital amino acid that is a source of energy for muscle contraction which, in turn, helps increase muscle strength, and endurance.

MSM (Methyl-Sulfonyl-Methane)

A natural anti-inflammatory and analgesic whose levels in the body decrease with age.

EPA and DHA

(Eicosapentaenoic Acid and Docosahexaenoic Acid)

Anti-inflammatory omega-3 fatty acids that work by inhibiting inflammatory prostaglandins.
